March 30 - 1928

Meeting held at C. of C. Building
Upon arrival, we were informed
that two passenger trains "The
Broadway Limited" and "Liberty
Limited" had a rear end collision
near Lima, Ohio and that the
sleet storm during the past
twenty-four hours had broken
down all wire communications
to Lima.

The Amateurs were asked to
establish communications if
possible.

Grave, Piecher, Stark, Reichner
left at once for stations 9CVX and
9AMJ who were on the 80 meter
band, believing this band the most
reliable one for short distance to
Lima, Ohio at night.

A few minutes later 9AAD called
up and asked for an operator to
assist him at his station.

9EHC volunteered to go on that
job.

9AAD was on the air continuous-
ly from about 8 P.M. until early
morning, using both voice and
code in the 80 meter band.

Logan Trenner 1670 Puncheon
filled out an application for

membership and upon motion of Lince and Pittman and vote of members, was accepted.

Several applications for A.R.R. memberships were filled out.

Dues Collected - \$1.00

Visitors - Joe Clifford, E.C. Robinson.
Upon general consent the meeting was dismissed so all members could assist in the P.R.R. distress. In a very short time after the meeting closed, 9BXJ and 9BIA joined in endeavor to raise Lima, Ohio both stations using voice and code in the 80 meter band.

A little later 9BXJ who had been assisting at 80 meter stations went home & came on the air on 40 meters.

9BYO also came on in the 40 Band.

The most active stations were.

9-BW9- 9AA9- 9QMZ- 9CVX- 9BXJ- 9BIA- 9BYO.

9BW9- 9AAI- + 9BIA. using both Code + Voice.

Practically all other members of the Club were frantically twisting the dials of their receiving sets in an endeavor to pick up some station in Lima, Ohio. But altho several round about routes were established & some messages went thru & answers were received it was not until the next day that direct communication with Lima was established. This delay has proven the urgent need of a portable station in Fort Wayne to take care of just such emergencies.
